

Electric - Qmax 25 m³/h - 416 l/min (110 USgpm) - Hmax 16 m (52 ft) Code on request

## **Product Data**

Suction port

Threaded - 1 1/2" ISO 228 (BSP)

Delivery port

Threaded - 1 1/2" ISO 228 (BSP)

**Qmax** 

25 m3/h - 416 l/min (110 USgpm)

. .

16 m (52 ft)

Solids handling

20 mm (0.8")

Motor power

1,1 kW - 2 HP

Motor type

Single-phase Standard IEC

Weight

30 kg (66 lb)

Indicative picture of the product

# Close-coupled self-priming centrifugal pump with single-phase electric motor

## **Characteristics**

The J series self-priming centrifugal pumps are used in applications where a rapid priming capacity is required from demanding suction heights combined with the ability to transfer and manage polluted fluids, dirty and abrasives with suspended large diameter solids. The system is based on an inspectable pump casing which also acts as a water tank allowing a first quick priming without auxiliary systems, simplifying management of the system and reducing the time for maintenance. Within the physically permitted suction height limits, J pumps are a more comfortable and reliable solution than submersible pumps and vertical submersed impeller pumps.

## **Benefits**

#### 1) Rapid self-priming

Without foot valve up to a height of 7.5 m (24.5 ft)

#### 2) High resistance

To abrasive liquids which are turbid and sandy

## 3) Semi-open impeller

High thickness casting impact resistant

#### 4) Wear plate/plates

Easily replaceable stainless steel wear plate/ plates

#### 5) Easy maintenance

Removable front cover for direct access to the impeller

## **Applications**

#### Industry:

clean, dirty, sandy, muddy, neutral, alkaline, acidic liquids; low viscous petroleum products, solvents even if dirty; milk of lime, caustic soda; washing, cooling, recirculation, smoke scrubbing.

#### Treatment:

pumping polluted corrosive wastewater containing sand, mud or solids in suspension; dosing neutralizing liquids; pumping out settled sludge.

#### Naval

loading and unloading; bilge pumping; washing, firefighting, stripping, sanitary duty and circulation.

#### Agriculture:

surface irrigation; liquid manure oxygenation; transfer and spraying liquid manure or fertilizers; distribution of liquid animal feed; transfer of wine must; washing.

Varisco S.r.I. has certified its Quality, Environment and Safety Management System in accordance with the requirements of the international standard ISO 9001-14001-45001, recognized by the Lloyd Register.

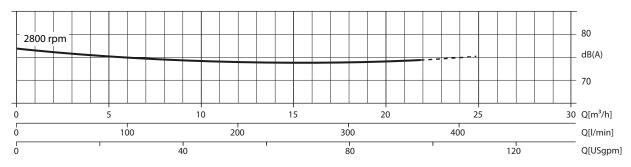

## **PERFORMANCE CURVES**

Test according to UNI EN ISO 9906 standard - level 2B Installed power: 1,1 kW - 2 HP (2.800 rpm)

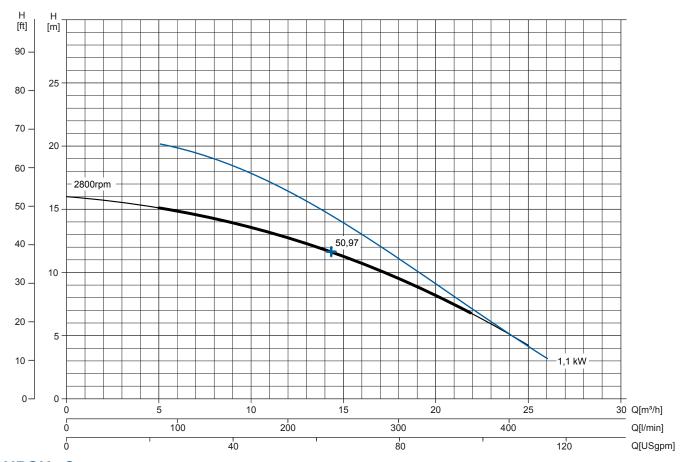

Test liquid: clean water, density 1.000 kg/m³ Spherical solids handling: D.20 mm (0.8")

## **Noise Curve**

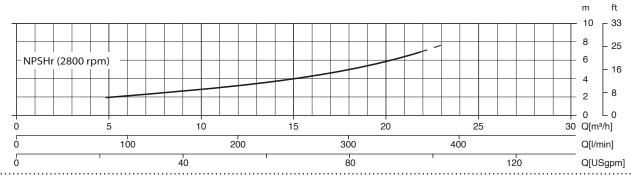

dB(A)=max noise level at 1 m

## **Speed Curve**

## **NPSHr Curve**

## **TECHNICAL DATA**

## **Pump**

Pump model	JE 1-110 K10 NM20
Qmax [2.800 rpm]	25 m³/h - 416 l/min (110 USgpm)
Hmax [2.800 rpm]	16 m (52 ft)
Suction port	Threaded - 1 1/2" ISO 228 (BSP)
Delivery port	Threaded - 1 1/2" ISO 228 (BSP)
Impeller type	Semi open, 3 vanes
Solids handling	20 mm (0.8")
Casing	ASTM A351 CF3M stainless steel
Impeller	ASTM A351 CF3M stainless steel
Wear plate	AISI 316L stainless steel
Non-return valve	check valve, FKM
Shaft	SAF 2205 stainless steel
Mechanical seal	Silicon Carbide / Silicon Carbide
Elastomers	FKM
Lubrication	Grease

## Motor

Mains supply (Single-phase)       230V +/-5%         Frequency (Nominal speed)       50 Hz +/-3% / 2.800 rpm         Absorbed current       6,3 A         Starting Current Is/In       4,8         Efficiency (100%)       79,6% ( IE2 )         Model       Soga MMD2         Standards       IEC 60034-1         Construction       aluminium, TEFC         Mounting arrangement       IM 2101 B34         No. poles       2         Rated power       1,1 kW - 2 HP         Degree of protection       IP55         Markings       CE         Insulation class/Temperature       F/105°K         Duty type       Continuous - S1	***************************************	•••••••••••••••••••••••••••••••••••••••

	Markings	CE
Duty type Continuous - S1	Insulation class/Temperature	F/105°K
Zai, i,p	Duty type	Continuous - S1
Temperature sensors N/A	Temperature sensors	N/A

## Arrangement

Dimensions	193 x 485 x 238 mm (6,73 x 19 x 9,35")
Coating	Polyurethane enamel, average thickness of 100 μm
Color	RAL 5010 blue (standard)
Features	Close-coupled with rigid coupling "N"
Height connection	0,17 m (0,55 ft)

#### Optionals

Flanged ports DN40 PN16 EN1092-1 Type B	cod. 10042789
Flanged ports 1 1/2" ANSI B16.1 Class 125 R.F.	cod. 10042825
Automatic mechanical seal greaser	code 10008316

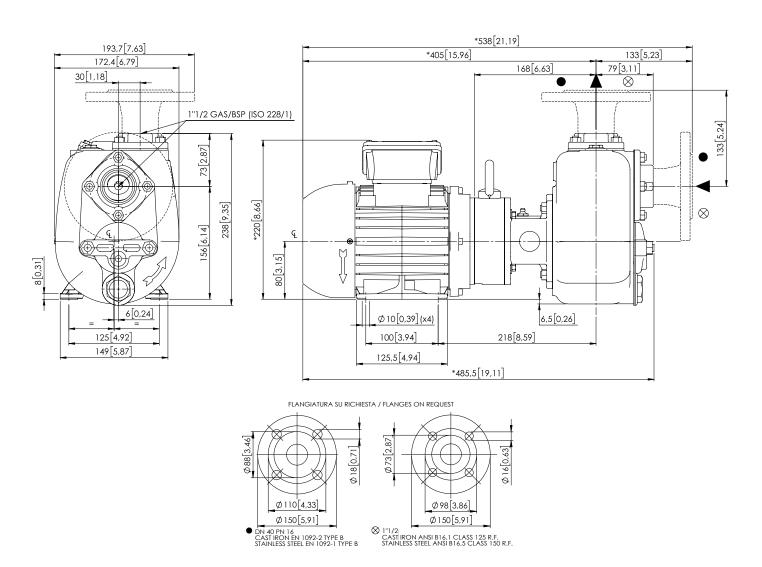

## Weight

1	let weight	30 kg (66 lb)
